Police Charge Son in Domestic Homicide

Howard County police have charged this evening an Ellicott City man in the death of his father earlier today. Jason Chen, 20, of the 4900 blk. of Webbed Foot Way has been charged with first and second degree murder and first and second degree assault for the killing of Yun Sen Chen. Chen, 45, was found dead at their residence just before 11 am.

Officers responded to the residence earlier today for a domestic assault. Detectives' investigation throughout the day led to tonight's charges being filed. Investigators have not released details about the nature of the dispute.
