MISSION STATEMENT OF THE HOWARD COUNTY HEALTH DEPARTMENT

To Promote, Preserve and Protect the Health of All in Howard County.

Complaints

The Howard County Health Department/Bureau of Behavioral Health/Local Behavioral Health Authority is interested in hearing any concerns you may have regarding services you receive from the public behavioral health system. Please call 410-313-6202 to initiate a complaint. If you are receiving services from someone who is reimbursed by your private health insurance coverage, you should contact your Human Resource Department at your place of employment to request information regarding how to file a complaint or request a review/appeal when you are denied services directly from your insurance provider. You can also contact the Maryland Insurance Administration at 1-800-492-6116, if you cannot resolve your issue directly with your employer or insurance provider.

Network of Care

Network of Care websites: HOWARD.MD.networkofcare.org.
www.mdveterans.networkofcare.org

Network of Care for Behavioral Health is an online information site for individuals, families and agencies concerned with behavioral and emotional wellness. This online community provides critical information, communication and advocacy tools with a single point of entry for the following:

- Service Directory – provides information about local community-based organizations
- Library – offers unbiased, evidence-based information on more than 4000 health topics
- Legislate – offers bill tracking section to follow state and federal legislation, email alerts when anything changes and allows you to directly email legislators
- Links – offers connection to government programs and non-profit organizations that specialize in behavioral health issues
- Insurance – learn about health coverage available in your community
- Support and Advocacy – identifies organizations that provide support and advocacy for individuals and family members living with mental illness

INFORMATION REGARDING BEHAVIORAL HEALTH SERVICES LISTED IN THIS DIRECTORY DOES NOT REFLECT ANY RECOMMENDATION OR ENDORSEMENT FOR THE PROVIDERS/PROFESSIONALS LISTED. THE HOWARD COUNTY HEALTH DEPARTMENT ASSUMES NO LIABILITY FOR ANY ACT OR OMISSION OF ANY PROVIDER LISTED IN THIS DIRECTORY.

PLEASE REPORT ANY ERRORS TO (410) 313-6202 or cschaffer@howardcountymd.gov

CRISIS SERVICES

Mobile Crisis Team:

410-531-6677

The Howard County Mobile Crisis Team (MCT) is available free of charge to any individual present in Howard County at the time of a mental health crisis. MCT is a partnership with the Howard County Health Department, Howard County Police Department, Humanim, and Grassroots. During hours of operation, MCT staff are able to respond to psychiatric crisis identified by the Police. Two mental health professionals go to where the individual is located and explore suitable support to de-escalate the crisis and help the person in trouble. If there is an issue of safety, the team is able to gain police assistance to have the person transported to the emergency room at Howard County General Hospital for a thorough psychiatric evaluation. The Mobile Crisis Team is available by calling 410-531-6677 or by calling the police at 911 and requesting the Mobile Crisis Team. MCT will refer the individual and family members to available community resources and follow-up to assure linkage.

MCT Hours of Operation

9 a.m. to 11 p.m. seven days a week

Grassroots Crisis Intervention Center

24 Hour Hotline: 410-531-6677

Language – Spanish, French

Sheppard Pratt Health System

6501 N. Charles Street

Towson, MD 21204

410-938-5302

Crisis Walk-in Clinic will evaluate individuals of all ages in need of crisis assessment and triage. This service is designed for individuals who require direct admissions to inpatient and day hospital levels of care and who might otherwise be referred to an Emergency Department or who require current psychiatric evaluation.

Crisis Beds

Crisis beds provide 24/7 intensive mental health treatment and support services that are designed to provide clinical support to an individual in a psychiatric crisis. Crisis beds can be used as an alternative to inpatient hospitalization, when appropriate, or as a step-down from an inpatient psychiatric unit when the individual needs continued clinical support post-discharge. An individual is eligible for a Crisis Bed if he or she:

- a) is over 18 years of age,
- b) diagnosed with a serious mental illness,
- c) due to acute symptomatology related to the individual's psychiatric condition, has impaired ability to function within the individual's community living situation and is in need of a crisis bed to avoid inpatient psychiatric admission or to shorten the length of inpatient stay,
- d) for clinical reasons, if it is felt that the individual needs a temporary separation from the current living situation,
- e) has agreed to be referred to a crisis bed,
- f) expects, with staff support, to be able to comply with treatment recommendations, and
- g) is able, with staff support, to care for physical needs and basic personal hygiene.

To access Crisis Beds, please call (410) 418-4048, fax # (410) 418-4019.

Psychiatric Evaluation

Family members or other concerned adults such as a therapist or the police may initiate an Emergency Evaluation process that will allow the police to transport an individual to the local hospital emergency room for a psychiatric evaluation. This emergency evaluation process is usually referred to as an "emergency petition" (EP). Also, any of the following mental health professionals can complete an Emergency Evaluation form that will allow the police to transport an individual to the local emergency room for a psychiatric evaluation: physician (MD), psychologist (Ph.D.), licensed clinical social worker (LCSW-C) or licensed clinical professional counselor (LCPC). If a family member or concerned adult is initiating the emergency evaluation process they would go to the Clerk's Office at the District Courthouse (410-480-7700) located at 3451 Court House Drive in Ellicott City Maryland to file an emergency evaluation/petition between the hours of 8:30 a.m. to 4:30 p.m. Monday through Friday. After 4:30 p.m. you would go to the Court Commissioner's Office to file an emergency evaluation petition. Information must be provided to a Judge or Commissioner regarding why this individual is a danger to themselves or others and therefore needs to be evaluated for a psychiatric hospitalization. If the Judge/Commissioner agrees that the individual being "petitioned" needs a psychiatric evaluation, the police will be ordered to transport the individual to the nearest hospital emergency room for a psychiatric evaluation. **The Mobile Crisis Team (MCT) is available daily and can pursue an emergency evaluation if needed. Call 410-531-6677.**

A psychiatric evaluation determines whether hospitalization is needed or whether a less restrictive level of care may be more appropriate. Admissions to psychiatric facilities (private or community hospitals) can be either voluntary or

involuntary. If an evaluation is completed and inpatient treatment is recommended, the patient will be asked to sign a voluntary admission agreement. In the case of a minor, a parent/legal guardian signs the voluntary admissions agreement. In Maryland, a person 16 years old or older may sign himself into a psychiatric hospital. However, the parent of a minor child can authorize in-patient treatment even over the objections of the adolescent who is 16-18 years old.

If the patient refuses to be hospitalized voluntarily, he or she may be admitted involuntarily on certificates signed by two physicians, or one physician and one licensed psychologist. The certificates attest to the need for hospitalization based on the following:

- the individual is suffering from a mental disorder
- the individual is in need of inpatient care
- the individual is in danger to self or others

Howard County General Hospital has an Emergency Room for psychiatric emergencies that is separate from the regular Emergency Room. This behavioral health Emergency Room is for individuals 18 and older. Individuals under 18 would use the Pediatric Emergency Room.

When a patient is admitted involuntarily to a hospital, a hearing must occur before an administrative law judge within 10 days to determine if the individual can continue to be involuntarily confined to an in-patient psychiatric facility against his wishes.

OUTPATIENT MENTAL HEALTH CLINICS (OMHC)

Community Behavioral Health

PRP services for adults and minors include a full range of rehabilitation activities and supports. Services for adults are organized to facilitate an individual's recovery which includes the ability to make decisions about life and create opportunities for choice regarding home, school or work and community. Services for minors will facilitate an individual's development of

independent living and social skills including making decisions and creating opportunities for choice to the degree that is age and developmentally appropriate regarding home, school or work and community. CSC will develop individualized service plans in collaboration with the consumer and, as appropriate, the parent or legal guardian and other collaborating service providers as authorized.

Target Group: minors age 13-18; adults age 19-35; open to all eligible regardless of age.

Will serve individuals with co-occurring diagnosis of intellectual disability.

Insurance: Medicaid

Humanim

Columbia, MD 21046
410-381-7171**

www.humanim.com

Psychosocial Rehabilitation Program (PRP) Services at Humanim provide a safe and therapeutic environment for individuals with mental illness. The primary aim of services is to empower individuals to manage their illnesses, develop their own goals for recovery and make informed decisions about their treatment by teaching them the necessary knowledge and skills to live healthy, successful lives in the community. Services are primarily divided into three domains including education, vocation, and illness management. Services are delivered through community integration and psychosocial group programming derived from the Substance Abuse and Mental Health Administration's (SAMHA) Illness Management and Recovery (IMR) Evidenced Based Practice. Services are specifically designed and implemented to: Support the recovery, health and/or well-being of the persons served, enhance the quality of life of the persons served,

reduce symptoms or needs and build resilience, restore and/or improve quality of life, support the integration of persons served into the community, promote self-advocacy, increase access to non-disability related social resources, increase Community Integration, offer cultural, spiritual and self-help opportunities, and increase independence on and access to public transportation.

RESIDENTIAL REHABILITATION PROGRAMS (RRPS)

Residential Rehabilitation Programs (RRPs) are licensed under COMAR 10.21.22. Residential beds are targeted to those individuals served by the public behavioral health system who are diagnosed with a serious mental illness and need assistance /support services to live in the community. Priority for placement in RRP is given to individuals returning to the community from State in-patient hospitalizations and individuals who are diagnosed with a mental illness and are homeless. All referrals for residential placement are screened by the Howard County Health Department/Bureau of Behavioral Health/LBHA to assure that the referral meets the criteria for placement. **Individual RRP providers can not authorize residential placements.** Please contact 410-313-6202 for a referral packet.

The Howard County Health Department has a Transition-Age Youth (TAY) Initiative that serves young adults between the ages of 18-25 who need residential services. This program is to assist young adults in becoming self-sufficient through educational/vocational services as well as other mental health support services. Priority for placement into the Transition-Age Youth (TAY) program is given to individuals age 18 who are aging out of in-patient settings such as Residential Treatment Centers (RTCs) and individuals who have utilized multiple treatment services in the public behavioral health system prior to age 18.

Humanim, Inc.
6355 Woodside Court
Columbia, MD 21046
410-381-1500

The Community Housing Program assists individuals in achieving independence within the community by providing a stable

place to live. It provides support services that promote a person's ability to engage and participate in community activities, and in a supportive environment, improve and restore independent living and social skills necessary to support an individual's recovery, ability to make informed decisions and choices, and participate in community life. A person-centered Individual Rehabilitation Plan (IRP) will be developed, identifying goals and objectives that reflect needed areas of development and preferences. Services are individualized with the objective of moving the person to a more independent living situation; either within the program or moving them into their own residence. **Services Available:** Affordable subsidized housing, Strength identification; Person-centered and strengths based goal development; Coaching and accountability towards goal achievement; Rehabilitative counseling; Education about mental health conditions and treatment; Assistance developing coping skills; Supportive counseling and problem solving; Life skills training community life; Medication Management; Case Management; Primary care integration through enrollment in our Health Homes Program; 24 Hour Crisis Response and Intervention Services; Benefits Counseling and Entitlements Management; Vocational and employment services through enrollment in our Evidenced Based Supported Employment Program; Community integration activities.

SUPPORTED LIVING PROGRAM

Humanim, Inc.
6355 Woodside Court
Columbia, MD 21046
410-381-1500
www.humanim.com

The Supported Living Program at Humanim assists individuals with mental illness in maintaining independent living within the community. The program provides a continuum of services to meet the unique needs of the individual. Services and activities are designed to assist individuals in improving self-sufficiency, increasing choice, gaining control of their lives and increasing participation in the community. The optimal use of natural supports; whereby each person builds their own network of supports are integral components of the Supported Living

Program. Individuals will identify their community support network (family, friends, church members, self-help group members). Case Coordinators will collaborate with the person's network of supports in planning and goal setting. Supported Living services are provided in the individual's home and at various locations throughout the community based upon the needs of the individual served.

www.humanim.com

Humanim's Evidence Based Supported Employment (EBSE) Program works with individuals with chronic and severe mental illness. The model is implemented in conjunction with the Behavioral Health Administration and the University of Maryland School of Medicine, Department of Psychiatry. Our Employment Consultants are involved in every aspect of the vocational process, focus on individualized career planning, and are an active part of the individual's clinical team. All employment services focus on individualized person-centered planning; services include career assessment, career

exploration, skill development, benefits counseling, job placement, on-going job support, including on and off site job coaching. Our goal is to work with individuals and his/her treatment team to create an integrated plan of care that increases the individual's independence, self-efficacy, and recovery.

Sykesville, MD 21784
410-970-7000**

State operated facility for long-term psychiatric services, including inpatient day unit and outpatient services for the deaf/hearing impaired.

HOUSING

The Department of Housing and Community Development provides affordable housing opportunities for low and moderate income residents of Howard County. The Housing Commission is a separate legal entity which serves as the Public Housing Authority for the purpose of developing and managing housing resources for low and moderate income residents of Howard County.

The Housing Choice Voucher Program (formerly known as “Section 8”), provides assistance for very low-income households (single or family), the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Participants who receive vouchers search for their own housing, which may include single-family homes, townhouses, and apartments, or even the family's present residence. The housing subsidy is paid to the participating landlord directly by the Howard County Housing on behalf of the resident. This payment is paid with the caveat that the housing unit meets the requirements of the program.

The Public Housing Program is funded and regulated by the United States Department of Housing and Urban Development (HUD), created to assist lower income families live in affordable, decent and safe housing. The housing agency owns the units rented to approved families. The participating families are required to pay 30% of their adjusted gross income toward rent and utilities.

Rental Assistance Program is funded and regulated by the Maryland Department of Housing and Community Development, providing grants to local governments to assist low income families who either are homeless or have an emergency housing need with flat rent subsidies. The ultimate goal is to help families transition from homelessness or temporary emergency housing to permanent housing. Participating families find their own housing for rent, boarding house rooms, other

single room occupancy arrangements, apartments, group homes, transitional housing (provided it is not temporary emergency housing), single family houses, and mobile homes.

Affordable Housing: The Rental Housing Program leases affordable, decent and safe units, of varying size and type, to low-to-moderate income County residents. The family's monthly rent payment varies and is based on factors such as gross income, unit size and the affordable rent structure associated with the unit.

An application is maintained until it reaches the top of the waiting list. At such time, an eligibility determination will begin and an interview will be scheduled to complete the eligibility determination. The amount of time that an applicant remains on the waiting list varies and is dependent on several factors. While on the waiting list, Howard County Housing (HCH) may send letters from time to time requesting information to update existing application files or asking if applicants are still interested in housing assistance. Applicants that do not respond will be removed from the waiting list.

For more information contact the Howard County Housing (HCH):

RESOURCES FOR OLDER ADULTS

The Howard County Health Department Bureau of Behavioral Health has a Psychogeriatric Coordinator providing free consultation for providers and agencies serving older adults with behavioral health needs and the community at large. This position also provides training for caregivers concerning behavioral management, referral and linkage to behavioral health and aging services and agencies, liaison and after care coordination for older adults transitioning into the community from state psychiatric hospitals and community outreach in partnership with local services. For more information call the Bureau of Behavioral Health at 410-313-6202.

The Howard County Office on Aging and Independence offers many programs and services that are accessed through Maryland Access Point (MAP) at 410-313-1234 or www.howardcountymd.gov and click on “seniors”. A directory of senior resources can be obtained at any Senior Center and the Howard County Department of Community Resources and Services/Office on Aging and Independence by calling MD Access Point (410-313-1234).

Case management or care management for older adults who may need a wide array of community support services is available through various financial arrangements. Fees will be no cost or will be determined by the practitioner, including some sliding scale fees. Contact Maryland Access Point (MAP) at 410-313-1234 or www.howardcountymd.gov and click on “seniors”.

Maryland Access Point (MAP) is a trusted source of information and assistance for Howard County residents who need or want to plan for their immediate and future needs. MAP serves adults 50 years and older, adults 18 years and older with a disability, family members and other caregivers, and health or business professionals. MAP resource specialists help individuals balance needs, wants, and resources to develop options to stay in the community; refer individuals to local, state, and federal programs and benefits and help individuals plan for their future needs. Services are free, confidential, unbiased. Language: Korean

Guardianship/Public Program

Under the public guardianship program, case management services are provided to individuals ages 65 and older who are declared incompetent by the court and who have no relatives or family to serve as guardian. Call **410-313-1234** for more information regarding this program.

Adult Evaluation & Review Services (AERS)

**8930 Stanford Boulevard
Columbia, MD 21045
410-313-1234**

This a program sponsored by the Health Department that provides screening, consultation, free multidisciplinary assessment and access to public services for persons needing support to live in the community. This is a critical step in determining need for in-home, assisted living and nursing home care.

Housing Assistance

Older adults with mental health needs have several housing options:

1. **Office on Aging and Independence—contact MD Access Point – 410-313-1234.** This may include an array of housing resources, home modification and home repair.
2. Apartment communities for senior citizens: **contact Howard County Office on Aging and Independence’s Housing Program at 410-313-1234.** Check the Shoppers Guide to Community and Apartment Living for an up to date listing.
3. Section 8 Certificate & Housing Vouchers: “Tenant based” subsidies, which allow elderly/disabled individuals to rent apartments or homes. Vouchers are transferable between counties and states. **Contact the Office of Community Housing and Development at 410-313-6318.**
4. Residential Rehabilitation Programs: Limited housing available to financially eligible individuals with serious mental health disabilities. **Contact the Howard County Health Department/Bureau of Behavioral Health/Local Behavioral Health Authority for more information at 410-313-6202.**
5. Assisted Living Facilities: Provides personal care to people who need help with the activities of daily living and

other services as a result of physical or cognitive impairment. **Contact the Office on Aging and Independence Program at 410-313-1234.**

6. Nursing Homes: These facilities provide a higher level of care than assisted living facilities, addressing physical and medical needs. A list of nursing homes can be found in the Senior Resources Guide or by **calling Howard County Office on Aging and Independence Program at 410-313-1234.**

Maryland Home and Community Based Services for Older Adults

Home and Community Based Services are offered to older adults and individuals with disabilities as part of the Medicaid Waiver Program. The Medicaid Waiver enables older adults to remain in the community setting even though the individual meets medical eligibility criteria for placement in a nursing home facility. The Medicaid Waiver allows those services usually covered by Medicaid only in a nursing home setting, to be provided to eligible individuals in their own home or in assisted living facilities in the community. Assisted living and in-home services for individuals are available for those who meet Medicaid Waiver eligibility. There may be an extensive waiting period. You should contact the Howard County Office on Aging and Independence. For this and for more information on the Medicaid Home and Community Based Waiver Program, **contact the MAP (Maryland Access Point) office at 410-313-1234.**

SHIP – Senior Health Insurance Assistance Program

The Howard County Office on Aging and Independence provides information and health insurance counseling services to people age 50+ and Medicare beneficiaries of any age. Office visits and home visits for homebound are available. **Call 410-313-7392**

SUBSTANCE USE DISORDER SERVICES

The health department plans, manages, and monitors the publicly funded substance use disorder services in Howard County.

Off-Site Counseling Services (OCS) – In-home therapy provided by licensed therapists to children, adolescents and their families who have Medicaid/MA as their health insurance. Minimum 2 visits per week in the home, school or other client-determined location. Goals:

- Reduce risk of out-of-home placement (hospitalization, foster care, detention)
- Reduce risk of higher intensity school placement
- Improve mental health/well-being of children, adolescents and their caregivers
- Reduce family conflict
- Improve family functioning
- Increase pro-social behaviors in home, school and community
- Empower individuals and families to explore, define and make better behavioral choices

The Care Center – Early Childhood Mental Health Project

410-313-CARE

children@howardcountymd.gov

www.howardcountymd.gov/carecenter

The Early Childhood Mental Health program can help child care providers and early childhood educators with children ages 0-5 years of age that have difficult and disruptive behavior. CARE Center behavior specialists work on site and provide observations and consultations with families and educators to provide intervention and support to decrease challenging behaviors such as:

- Anxiety
- Aggression/biting
- Trouble following directions
- Hard to soothe
- Difficulty forming relationships/developing friendships

Behavior specialists work on these issues with the goal of keeping children in care, giving them a better chance to enter school ready to learn. The CARE Center can answer questions about school readiness and success in school, positive youth development, community services, concerns about your child's emotional or

mental health, difficult or inappropriate behaviors, child care programs and preschools, developmental delays, including speech, physical disabilities or hearing, local recreation and sports programs, classes for parents on child development, positive discipline and parenting skills, financial assistance, support groups for parents and children, intensive needs services and respite care, drug or alcohol use or abuse.

Center for Child and Family Traumatic Stress at Kennedy Krieger Institute

443-923-5980 / Fax 443-923-5905

www.KennedyKrieger.org/TraumaticStressCenter
intaketraumaticstresscenter@kennedykrieger.org

Center for Child and Family Traumatic Stress at Kennedy Krieger Institute provides evidenced-based mental health treatment to children, adolescents and families who have experienced trauma such as physical or sexual abuse, neglect, domestic violence and community violence. The education and training and offered to parents, professionals and community organizations promote greater understanding of the developmental, emotional and behavioral consequences of trauma and communicates the most effective ways to provide care.

The Center for Child and Family Traumatic Stress is an affiliate member of the National Child Traumatic Stress Network, which is a national resource focused on childhood trauma.

The Maryland Coalition of Families for Children’s Mental Health is a grassroots coalition of family and advocacy organizations dedicated to improving services for children with mental health needs and their families and building a network of information and support for families across Maryland. Visit our website to learn about Coalition initiatives and browse our online directory of resources.

The Family Navigators Program: Family Navigators are not lawyers or therapists and do not provide legal representation or counseling. Navigators do not advise families on decisions pertaining to their children, but provide support and information to discuss options with families so they can make the best choices for their children. A Family Navigator can provide:

- Information, referral and linkage to appropriate services for your child
- One-to-one support and advocacy for your family
- Guidance in completing forms and applications for services
- Support at meetings related to your child, when possible
- Education on laws, policies and procedures to access services to your child
- Workshops to inform you and other families on services and ways to effectively advocate for your child.

Family Navigators also work in partnership with local agencies and participate on planning and advisory boards to provide a family perspective on policies and programs for children with special needs. Navigators

make every effort to involve many families in leadership roles in their community.

Psychiatric Rehabilitation Program (PRP) for Youth in Howard County

Through this program, more comprehensive supportive services are offered to the children and families in Howard and neighboring counties. Services offered: support of cultural interests, mobility and transportation skills, accessing available entitlements /resources, social skills (natural supports and linkages, participation in community activities), self-care skills (hygiene, grooming, nutrition, dietary planning, self-administration of meds), money management (obtaining and retaining employment, banking), therapeutic programming which includes behavioral self-management, impulse and mood regulation, anger management, and behavior modification components, and accessibility to on-site psychiatric and

therapeutic treatment in our mental health clinic. Client must be a Medicaid recipient between the ages of 3-17, be in active treatment, and referral must come from treating provider (clinician or psychiatrist). We do accept referrals for PRP services of youth receiving therapy from another agency as long as there is agreed upon collaboration of care between agencies. Contact Program Director Marvin Reese at 410-730-2385 to make a referral.

Stand-Up HoCo: A Campaign to Prevent Bullying

Stand Up HoCo is a safe way to report:

- Bullying, harassment or intimidation
- Cyberbullying (e.g. Facebook, Twitter, Text Message, Instant Message)
- Fights, drugs, alcohol or weapons
- Friends who talk about hurting themselves

There are two ways to STAND UP:

1. Connect on Facebook to join the conversation:
facebook.com/StandUpHoCo
2. Report incidents of bullying on
hoco.sprigeo.com

TRANSITION AGE YOUTH (TAY)

Healthy Transition-(HT) Services

This program is an effort to educate, support and assist emerging youth and young adults 16-25 years of age with behavioral health challenges regain and maintain independence in the community, while assisting with the unique challenges of transitioning into adulthood. These services are an individualized, strengths and evidence based supports for youth and young adults which include Life Skills Coaching and Teaching, Peer Mentoring, Case Management, Evidence Based Supportive Employment, Vocational Services, and in some cases housing. Individuals who are willing to participate with HT-Services must meet the priority population diagnosis for adults. Exceptions to the diagnosis requirement can be made on a case by case basis. The HT provider for Howard County is Humanim. Contact the Howard County Health Department/Bureau of Behavioral Health/Local Behavioral Health Authority at 410-313-6202 or Humanim at 410-381-7171 for more information or a referral packet.

Maryland Early Intervention Program (EIP)

The Early Intervention Program is being established at the University of Maryland, School of Medicine (UMSOM) to provide early identification, evaluation, and comprehensive psychiatric treatment to adolescents and young adults with psychotic disorders. Recent advances in mental illness science support a paradigm shift from the treatment of individuals with an already established illness to early detection and intervention of people who are at high risk for the development of a psychotic illness or are in the initial stages of such an illness. The goal of this new approach is to alter the course of illness, reduce disability, and maximize the likelihood of recovery. More information about EIP can be found at marylandeip.com.

CASE MANAGEMENT/CARE COORDINATION

The goal of case management/care coordination is to help youth and families remain together with substantial community-based services to meet their ongoing needs. Mental Health Case Management services assist individuals by linking them to rehabilitation and treatment services, entitlements/benefits for which they may be eligible, housing, social supports, vocational and educational services. Medicare and private insurances do not pay for case management services. Individuals who are eligible for case management services cannot be receiving case management services from another

agency and must be willing to voluntarily agree to participate in case management services. The child and adolescent care coordination/case management provider is Center for Children, Inc. Call 240-320-2023 or the Howard County Health Department/Bureau of Behavioral Health/LBHA at 410-313-6202. The adult care coordination/case management provider is: Humanim, Inc.

info@mdcoalition.org

The Maryland Coalition of Families for Children's Mental Health is a grassroots coalition of family and advocacy organizations dedicated to improving services for children with mental health

needs and their families and building a network of information and support for families across Maryland. Visit our website to learn about Coalition initiatives and browse our online directory of resources. **The Family Navigators Program:** Family Navigators are not lawyers or therapists and do not provide legal representation or counseling. Navigators do not advise families on decisions pertaining to their children, but provide support and information to discuss options with families so they can make the best choices for their children. A Family Navigator can provide:

- Information, referral and linkage to appropriate services for your child
- One-to-one support and advocacy for your family
- Guidance in completing forms and applications for services
- Support at meetings related to your child, when possible
- Education on laws, policies and procedures to access services to your child
- Workshops to inform you and other families on services and ways to effectively advocate for your child.

Family Navigators also work in partnership with local agencies and participate on planning and advisory boards to provide a family perspective on policies and programs for children with special needs. Navigators make every effort to involve many families in leadership roles in their community.

Mental Health Association of Maryland

MARYLAND'S COMMITMENT TO VETERANS

Maryland's Commitment to Veterans helps navigate the transition to civilian life. Regional Resource Coordinators (RRCs) serve as navigators for post-deployment needs. The tasks that veterans trained for on the battlefield are worlds away from the daily hardships that now surface. RRCs are here to assist veterans and their families obtain services through the Department of Veterans Affairs (VA) and other available local resources. RRCs offer knowledge and assistance in:

- Crisis and Emergency Services
- Substance Abuse Services
- Individual, Family & Group Therapy
- Issues of Homelessness
- VA Benefits
- Unemployment Issues

The coordinators also work with service members with less than honorable discharges to explore the possibility of a discharge status change, to increase eligibility for VA benefits. Contact a Regional Office location serving every county.

Contact Information: 1-877-770-4801

Veterans Affairs – Baltimore Community Referral and Resource Center

M-F 7:00 a.m. - 4:30 p.m. 410-637-3246
The CRRC serves as a hub to combat homelessness among Veterans. These facilities centralize federal and local partners to provide services to homeless and at-risk Veterans. The building includes a Primary Care Clinic, a complete kitchen, laundry and shower facilities as well as a host of other community services.
