Ashton Woods pond repair project to begin

ELLICOTT CITY, MD – A Howard County construction project to repair a storm water management pond near 8401 Oakton Lane in Ellicott City is expected to begin on or about Monday, December 3. The existing corrugated metal outfall pipe will be removed and a new 36 inch reinforced concrete pipe will be installed. In addition, the pond will be regraded, two forebays will be added and the pond outfall will be stabilized using a riprap protection. Weather permitting, the project is expected to be completed by late March 2019.

The project is not expected to impact the flow of traffic; however, the sidewalk along the north side of Falls Run Road in the area east of its intersection with Oakton Lane will be closed during construction. Signs will be posted at the project site to advise motorists and pedestrians of the construction and sidewalk closure.

For questions or concerns about Capital Project D-1160, contact Lisa Brightwell, Public Works Customer Service, at 410-313-3440 or email publicworks@howardcountymd.gov.
