Martin Road and Seneca Drive intersection in Hickory Ridge to become multi-way traffic stop

ELLICOTT CITY, MD – A Howard County project to convert the intersection of Martin Road and Seneca Drive in Columbia to a multi-way traffic stop is scheduled to begin on or about Wednesday, May 30.

At the intersection, a stop sign will be added in each direction on Martin Road, creating a new traffic pattern. Recent studies have shown that traffic volume continues to increase in this area, making the change necessary to improve safety for turning traffic at that intersection. Weather permitting, the project is expected to be completed in one day.

Signs have been posted in the area to alert motorists of the reconfiguration.

For questions or concerns about the new traffic pattern, contact Lisa Brightwell, Public Works Customer Service, at 410-313-3440 or email publicworks@howardcountymd.gov.
