## Glenmar pond repair project to begin

ELLICOTT CITY, MD – A Howard County construction project to repair a storm water management pond located between Debbie Court and Mitzy Lane in Ellicott City is expected to begin on or about Monday, November 19. The project will include installation of a concrete riser and a 30-inch reinforced concrete spillway pipe. The pond will be regraded and a forebay and stone will be installed at the pond inflow. As part of the regarding of the pond, trees and woody vegetation will be removed to ensure no vegetation is within 15 feet of the pond embankment. Weather permitting, the project is expected to be completed by late February 2019.

The project is not expected to impact the flow of traffic; however, the walking path between Debbie Court and Mitzy Lane will be closed during construction. Signs will be posted at the project site to advise motorists and pedestrians of the construction and pathway closure.

This project is funded through the County's Watershed Protection and Restoration Fund.

For questions or concerns about Capital Project D-1159, contact Lisa Brightwell, Public Works Customer Service, at 410-313-3440 or email [publicworks@howardcountymd.gov](mailto:publicworks@howardcountymd.gov).
