

Get Ready Maryland: Viruses, Virulence, and Vaccines

Local Emergency Planning Committee

Howard County LEPC meetings are designed to help businesses and community members increase their resiliency by providing information and training to increase preparedness. This meeting will focus on public health and recent global epidemics.

Join us on Thursday, February 27th for a presentation by Raimee Eck from the Maryland Public Health Association.

Raimee H. Eck, PhD, MPH, MPA, CPH is currently the Immediate Past President and the Chair of the Advocacy Committee of the Maryland Public Health Association (MdPHA), the state affiliate of the American Public Health Association. Through MdPHA, Raimee promotes best practices in public health education, research, and advocacy at the local, state, and national level on important topics ranging from pharmaceutical drug costs to tobacco use to climate change.

This presentation will cover several common (and a few uncommon!) public health hazards. It will focus on identifying the most common community illnesses, how they spread, and ways to protect yourself and your family. It will also review current global epidemics and the possible impact to us locally.

Coffee, light breakfast fare, and networking will begin at 9:00 am. The training will begin at 9:30 am.

This meeting is free and open to the public. No prerequisite training is required.

To request accommodations for participating in this meeting, please call the Howard County Office of Emergency Management at 410-313-6030, or send an email to emergencymanagement@howardcountymd.gov at least five (5) days (excluding Saturdays, Sundays, and holidays) prior to the meeting.

When: Thursday, February 27th from 9:00 am - 12:00 pm

Where: Roger Carter Community Center

3000 Milltowne Drive
Ellicott City, MD 21043
